- VP Programming: Friday 11am – 12pm, biweekly

Places To Go

<http://www.as.sdsu.edu/ca>

Now, In College of Arts & Letters (CAL)

Want to be a part of AS COUNCIL? **TWO CAL REP SEATS ARE OPEN!!**

There are now two CAL seats on the Associated Students (AS) Council open to any student with a major in the College of Arts & Letters. This is a great opportunity to get involved in the university and learn all about what AS does.

The AS Council is instrumental at creating positive change on campus by listening to the concerns of students and working with the campus administration. Serving on the AS Council is a truly unique experience and proves to be a highlight in students' college career.

CAL Representatives are required to attend all AS Council meetings every Wednesday starting at 3:30, as well as attend the CAL Student Council meetings every Monday at 10:00am.

As you consider applying, please note the eligibility requirements and the responsibilities required to serve as a Council member, which can be reviewed at <http://as.sdsu.edu/govt/council/laws/bylaws/eligibility.html> and <http://as.sdsu.edu/govt/council/laws/bylaws/meetings.html> respectively.

If you're interested in applying for one of these seats, please pick up and turn in an application to the **Government Affairs Office in Lower Aztec Center. Applications are due by 4:30pm on December 1, 2010.** Once the applications have been reviewed, you will have the chance to speak to the CAL Student Council on December 6th as to why you would be a good candidate for the position.

Student Health Services Fee Increase Approved by AS, CAL In Support

On October 27, 2010, Associated Students Council voted to support the \$65 fee increase proposed by the Department of Student Health Services. According to Thomas Wilson, interim director of SHS, the fee was proposed because Student Health Services has been losing money over the last couple of years due to a difficult economy, rising cost of healthcare, and decreased student enrollment.

Student Health Services provides low cost medical care and medications to SDSU students. These services range from basic check-ups to lab work to x-rays to psychological services.

On October 11, the CAL Council was given a presentation on the fee, its history, and its purpose; the council voted to support the increase on October 18. The fee will go into effect Spring 2011.

AS Brief

From October 6 through October 22nd, San Diego State participated in College Rocks Hunger, a program in which San Diego universities compete to gather food to give to the San Diego community food banks. The food drive, organized by Associated Students Vice President of Finance Amanda Pascoe, raised over 18,000 pounds for local food banks. SDSU contributed approximately 70% of the total amount of food raised between all of the participating universities, making this

the third year in a row that SDSU has won the competition. The prize is an electric guitar that will be engraved and hung up in the Government Affairs Office.

Message from the President

Dear College of Arts and Letters Students!

I hope you will consider getting involved around campus! Getting involved will really help you find your place and make new friends who share your interest. SDSU and the College of Arts & Letters (CAL) both offer several ways for you to do this. As you look over your options, I hope you will also consider being a part of CAL Council. This council is made up

of student representatives from the student organizations under CAL as well as representatives to the Associated Students (AS) Council. By being a part of our council, students are informed about what is going on in CAL, as well as what is going on in AS and around campus. I sincerely hope you will consider joining us because the more student participation, the better we can accurately represent CAL Students. Our meetings will be every Monday at 10am in Aztlan in lower Aztec Center. Hope to see you there!

Sincerely,

Leslie Paciski

College of Arts & Letters Council President
